

COMMERCIAL-DUTY PERFORMANCE CAN'T BE FAKED

To help your business run at its best, you need a truck purpose built for commercial duty. The International® TerraStar™, our class 4/5 work truck, delivers. It's powered by MaxxForce® 7, the 300 hp engine built for medium duty. It also features MaxxForce Advanced EGR, the only no-hassle, no liquid urea 2010 emissions solution.

Its fully integrated Diamond Logic® electrical system gives you more uptime and better functionality. Add a commercial-duty Allison 1000 Series transmission and a tilt-away hood, and you've got a truck you can depend on, and then some.
